

Want to include community-based learning in your courses?

Here are three ways!

1

Teach a half-credit class around a new or existing community-based project

2

Add a community-based assignment to your class

3

Integrate a community-based learning project into your class

Community-based learning is interdisciplinary, and easy to insert into all fields!

What can I provide as the Community Engagement Coordinator?

- Arrange transportation
- Workshops on CBL projects, curricula & grading
- Help in forming partnerships
- Materials, tips, models, templates, etc.
- Access to resources

Why community-based learning?

- Increasing data shows that community-based learning has a dramatically positive effect on
- student learning outcomes
 - student satisfaction & understanding of theory
 - faculty satisfaction with teaching
 - faculty & student engagement with the field

Possible Projects:

The Inland Empire Project
- The City of Pomona

Create your own!

LAMP - Literacy for
All of Monterey Park

We are happy to find ways to support your integrating of community-based learning!
